Lloyd's Register of British and Foreign Shipping.

STATISTICAL SUMMARY

OF

VESSELS OF ALL NATIONS,

OF 100 TONS AND UPWARDS,

TOTALLY LOST, CONDEMNED, &c.,

DURING THE YEAR

1892.

NOTE:—This Summary is based upon the quarterly returns of total losses, &c., which have been published by Lloyd's Register. It includes, however, several vessels which had not been given up as total losses, or of the loss of which information had not been received, when the returns for the quarters in which they respectively occurred were compiled. On the other hand, a few vessels which, being definitely considered as total losses at the respective dates of compilation, were included in the quarterly returns, have since been floated, repaired, &c., and are accordingly now excluded from the statistics given herein.

A distinguishing feature of the Wreck Returns published by Lloyd's Register is that, except as regards missing vessels, they are compiled strictly according to the dates at which the casualties resulting in total loss actually occurred, and not according to the dates at which reports of casualties were received.

2, WHITE LION COURT, CORNHILL, LONDON,
31st July, 1893.

TABLE No. 1:—Showing the number, net and gross tonnage and nationality of STEAM VESSELS totally lost, condemned, &c., during the year 1892, as reported up to 31st July, 1893; and showing also the number and tonnage of steam vessels owned in each country. (Vessels under 100 tons gross are not included in this return.)
